REQUEST FOR CERTIFICATE  
OF CORRECTION

Counsel for the patentee respectfully requests approval of the enclosed Certificate of Correction.

In the Preliminary Amendment filed September 25, 1998, a copy of which is attached hereto as Exhibit A, applicant sought to amend the specification at pages 4, lines 25, 26 by cancelling the reference to the Miller application as an abandoned application and by reciting that the Miller application may be considered material to the examination of the application. However, applicant inadvertently failed to cancel the second reference to the Miller application as an abandoned application which appeared at page 5, lines 4 and 5, and other related language.

01 FC:1811

100.00 OP

MAY 01 2003

The purpose of the Certificate of Correction is to cancel that second reference to the Miller application as an abandoned application which appears in the patent at column 3, lines 1 to 5, and the other related language.

A check in the amount of \$100.00 for the Certificate of Correction fee is enclosed.

Dated: April 24, 2003

Respectfully submitted,

---

PRELIMINARY AMENDMENT

Prior to the first office action with respect to the subject application, please amend  
the application in the following manner:

In the Specification

At page 4, lines 25, 26, please cancel "The Miller application, the serial number  
of which is not known, is believed to have been abandoned.", and insert therein --The Miller  
application, the serial number of which is not known, may be considered material to the  
examination of the subject application.--

In the Claims

This application is a continuation of application Serial No. 08/047,481 filed April  
19, 1993. Please cancel claims 1-34 of the originally filed claims in Serial No. 08/047,481.

Please add the following claims 35 to 37.

35. A compound archery bow comprising first and second bow limbs having axle pins therein, an anchor cable having one end fixed on the axle pin of said first bow limb and having another end fixed to an eccentrically mounted cam mounted on the axle pin of said second bow limb, said eccentrically mounted cam comprising a non-circular profile to feed out a first cable section affixed to the cam and a second cable section affixed to the cam when the bow is being drawn, and wherein one of said first cable sections or second cable sections forms a bowstring.

36. A compound archery bow as set forth in claim 35 wherein said means to feed out the first cable section and second cable section comprise first and second grooves having different peripheral lengths.

37. A compound archery bow as set forth in claim 35 wherein said means to feed out the first cable section and the second cable section comprises an eccentric groove which also takes up the anchor cable as the bow is being drawn.

Respectfully submitted,

Dated: September 25, 1998
